### **DETAILED ACTION**

This action is in response to Amendment filed June 8, 2007. Claims 1, 10 and 11 have been amended as requested by the applicant.

#### ***Response to Arguments***

Applicant's arguments, see Amendment, filed June 8, 2007, with respect to rejection of claims 1, 10 and 11 have been fully considered and are persuasive. The rejection of claims 1, 10 and 11 has been withdrawn. Applicant amended the claimed language to overcome the prior art of record.

#### ***Allowable Subject Matter***

Claims 1-11, 16-19 and 21-30 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claims 1, 10 and 11, the prior art of record fails to teach or suggest photographing an observation image and varying the observation conditions on the adjusted observation image and setting first observation conditions for acquiring a plurality of observation images each first observation condition includes a distinct pre-selected illumination direction. The prior art teaches arbitrarily changing the illumination direction, which the examiner

interprets as a random switching of illumination direction and therefore not capable of satisfying the pre-selected limitation of the claim language.

The remaining claims depend from claims 1 and 10 and are allowable for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
